PROJECTS

SwiftFolio — Portfolio & Resume Generator MERN Stack React.js, Node.js, Express.js, MongoDB, JWT	2025
– Built a full-stack web app that lets users fill out a form and instantly generate a live portfolio website and downloadable resume — no coding required – Engineered a real-time preview engine using React state management, reflecting changes instantly as the user types – Designed a modular component system supporting multiple resume/portfolio templates with dynamic theming and layout switching – Implemented secure user authentication (JWT) and cloud data persistence via MongoDB so users can save and revisit their profiles	
Interactive Developer Portfolio React.js, Framer Motion, CSS3, Vercel	2025
– Designed and deployed a personal portfolio website with a polished, modern aesthetic to showcase projects, skills, and contact information – Integrated Framer Motion for smooth page transitions and scroll-triggered animations, improving perceived performance and user experience – Built fully responsive across all screen sizes and deployed on Vercel with continuous deployment via GitHub	

EXPERIENCE

Programming Tutor (Part-Time) Freelance	Nov 2025 – Dec 2025 India
– Taught programming fundamentals including JavaScript, logic building, and problem solving to Class 11–12 students – Designed structured lessons and hands-on coding exercises to improve understanding
